Press Release

Jawaharlal Nehru Port Container Terminal selects N4 Terminal Operating System.

Navis N4 will help Terminal Increase Capacity and Improve Productivity.

Mumbai 11ᵗʰ October 2017 ; JNPCT- the Port owned container terminal has upgraded its terminal operating system to SPARCS N4 platform. The Navis N4 platform will optimize the terminal's operational cycle with the ultimate goal to increase JNPCT efficiencies so that customers can experience improved productivity.

Jawaharlal Nehru Port Container Terminal , one of the container terminal directly managed by India's leading container port-JNPT, is constantly innovating and up-scaling operations to not only meet but exceed global benchmarks with an underlying commitment to provide seamless customer service and ease of doing business.

During recent years, JNPCT has taken a number of initiatives for faster and economical operations along with automation that has helped in streamlining the processes and helping in reduction of cost, time and documents and thus making it easier for clients and partners to do

business with them. The decision of migration to Navis N4 TOS solution, is one of the step towards achieving the objective.

 "Here at JNPCT, we are actively tracking all organizational and operational methods so that we can improve and modernize our cargo handling processes, The N4 implementation process will be managed by Cargotec Corporation and will directly work with JNPCT, utilizing Navis' methodology and project management tools. Cargotec will provide configuration, testing, report and field extensions, go-live support services, including training courses so that the management and mid-management teams are up and running on N4 as quickly as possible. "." Said Dr.Unikrishnan Nair, Chief Manager(Traffic) at JNPT. "."

We believe that innovation and digitisation are key to maintaining a high level of productivity. Therefore, introducing latest technology and equipment is an absolute requirement. Our decision to select N4 is part of a large investment plan to expand and modernize operations across the board and make us more competitive in the industry, and we are confident that its reliability will carry us forward as we evolve" said Mr. Neeraj Bansal, Deputy Chairman, JNPT. JNPT is committed to offer latest infrastructure to the stakeholders to benefit trade. We are confident that this new platform will help us achieve the desired productivity and growth goals through optimized operations on a modern platform, Mr Bansal added.

"JNPCT is a terminal that understands the value of maintaining a competitive advantage in the market through embracing technological advancement," Said Anil Diggikar, Chairman, JNPT. "JNPCT maintains a forward-thinking attitude towards change management and is open to new methods and processes that will support the terminal's growth."

While Navis officials highlighted the benefits of the new product, the representatives of trade bodies lauded JNPT management for ushering in many positive changes in a time bound way for creating value for the trade.

JNPT employees who have undergone training in using the new software were felicitated at the function.
