

Delegates for the Training Program along with senior officials of JNPT

Week-long training course on 'Port & Terminal Optimization' for Port professionals organized at JNPT

Mumbai, July 26, 2019: JNPT (Jawaharlal Nehru Port Trust) the number one container Port in India, organized a week-long training program on 'Port & Terminal Optimization' for Port professionals across the country. This seminar provided delegates with an overview on how Port master planning plays a key role to helping Ports design their expansion plans to meet future demands.

This training seminar touched upon various aspects related to Port & Terminal optimization such as hinterland connectivity, innovation & digitization, strategy and Port planning, amongst various other subjects discussed. The sessions included granular discussions on how technology led innovation and digitization will revolutionize the Ports of the future, while Port strategy & planning helps Ports to respond to inevitable changes and be productive in times of technology advancement and evolving market demands, to achieve economies of scale and efficiency. Hinterland connectivity is another crucial element to enhance the business volumes and overall growth trajectory of the Port, which also was covered under the gamut of Port optimization.

The sessions were followed by a visit to JNport for delegates to see various Port & Terminal optimization initiatives underway at jNPT, which includes the on-going development of the 4th Terminal, deepening and widening of the navigational channel and slew of automated and digitized processes, aimed to enhance the overall operational efficiency.

In addition, some of the other key initiatives underway at JNPT, for Port & Terminal optimization include, the mega road widening project which will help the road infrastructure handle the increased container traffic due to future Port expansion, development of the liquid Terminal and the JNPT-SEZ project, amongst many other projects at various stages of development.

This training seminar has been curate and conducted at the JNPT Antwerp Port Training and Consultancy, which saw the participation from 15 delegates representing various Ports of the country.
